

High Power LED Modules

LLM2WM series

We realize most appropriate LED modules for outdoor lighting to combine high power LED and our own luminous intensity distribution control technology, which is cultivated by automobile head lamp. You can choose luminous intensity distribution from three characteristic lenses as usage.

■ Features

- High efficiency type 93lm/W (LLM2WM-001)
- High flux type 280lm (LLM2WM-002)
- High flux type with DC/DC converter (LLM2WM-007)

■ Main application

- Street lights
- Parking lights
- Security lights
- Sign lights

LLM2WM series
